

Interview Story Bank

Most interview questions are variations on a handful of themes. Write six stories properly and you will have an answer for almost anything you are asked.

- A time you delivered something difficult.
- A time you disagreed with someone more senior.
- A time you got it wrong and what changed afterwards.
- A time you worked out what the real problem was.
- A time you helped someone else succeed.
- A time you had to decide without enough information.
